

ORGANIZED IN 2000

Southeast Concrete Alliance Network (SCAN).

Members are seven Southeast States:

Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee.

MISSION

To provide an ongoing regional forum for Portland cement concrete (PCC) pavement technology sharing that:

- Encourages development of uniform specifications, best practices for mutual problem solving, and promotes research and technology.
- To promote implementation of innovative construction practices and quality designs.

The objectives of this organization are:

- To develop uniform regional specifications for concrete pavements for highways, local roads, and streets
- To promote reciprocity of material specifications among the member states.
- To develop a comprehensive information sharing process.
- To establish a coordinated regional research effort.
- To promote quality designs and construction practices.
- To hold an annual forum for sharing information and to present new technology and research efforts concerning Portland cement concrete pavements and its components for highways, local roads, and streets

Members

- DOT 8 (1 at large)
- FHWA 1
- Academia 1
- Contractors 3
- Cement Industry 2
- Aggregate 1
- Equipment 1
- Specialty Products 3
- ACPA-SE 2
- Ready Mix 1
