

State DOT: Indiana

State Report Questions on MEPDG Implementation

1. Summarize your state's status as far as MEPDG Implementation.

It is fully implemented since January 1, 2009. It is already in the INDOT Design Manual.

2. What efforts have been made toward local calibration?

Hot Mixed Asphalt local calibration had been done but not as accurate as we expected. Therefore, verification is implemented as local calibration while waiting for a full blown local calibration for all types of pavement.

3. What additional information/support would assist your state with implementation?

None.
