

**NORTH DAKOTA DOT**

**State Report Questions**

April 26-28, 2011 TTCC/NCC Meeting

1. Summarize your state's current QC/QA requirements for pavements.

North Dakota does not have a QC/QA for concrete.

2. Identify any differences in QC/QA requirements on projects with accelerated schedules.

3. Summarize the requirements for allowable time between batching and placement for agitated and non-agitated concrete mixes.

4. Summarize acceptance and payment adjustment clauses related to QC/QA requirements.
