

Appendix

Before construction can begin on a site the following steps must be taken to be in compliance with the Iowa DNR General Permit No.2:

- A Stormwater Pollution Prevention Plan must be created for the site
- A Notice of Intent (NOI) must be completed by the operator of the construction site and this document along with public notices must be submitted to the Iowa DNR.
- A signed affidavit must be filed with the local Soil and Water Conservation District stating that the project will not exceed the soil loss limits stated.
- A Letter of Authorization is provided to the Operator of the construction site, upon approval of the NOI by Iowa DNR.
- SWPPP review and approval is required by MS-4 cities prior to construction.
- Necessary best management practices should be in place prior to construction.
- Construction can then begin.

Copies of the NPDES stormwater permitting guidance and application forms can be found on [Iowa DNR's website](#).
