

Proprietary Products

A. Proprietary Products

The SUDAS Standard Specifications do not use references to proprietary products. A list of products that may be considered for approval by the engineer to meet the specifications is contained on the SUDAS website (www.iowasudas.org). This list is not intended to be a comprehensive listing of all acceptable products, nor is it intended to exclude any product that meets the specifications requirements. This list of commonly used products is provided simply as a convenience to the designer. No assurance is inferred or made regarding the use of these products. No verification is made for the listed products as to the continued compliance with the specifications. It remains the responsibility of the Project Engineer to verify that the products used meet the needs of the project and the appropriate specifications. Changes to this list will be made at the request of the specifications users and will be approved by the SUDAS Board of Directors on a yearly basis.
