

# SUDAS Revision Submittal Form

**Status Date:** As of 5/20/2020      **Topic:** Cross slope for SW, DW, and SUPs  
**Manual:** Specifications      **Manual Location:** Section 7030, 3.04 and 3.05

---

**Requested Revision:**

**3.04 PCC SIDEWALKS, SHARED USE PATHS, AND DRIVEWAYS**

Construct sidewalks and shared use paths to the line and running slope specified in the contract documents. Unless otherwise specified in the contract documents, the maximum cross slope is 2.0%, target cross slope is 1.5%, and minimum cross slope is 1.0%.

**A. Form Setting:** Comply with Section 7010 with the following additional requirements and exceptions.

1. Slip form paving equipment may be allowed in lieu of setting forms, if approved by the Engineer.
2. Wood forms are allowed.
3. Use of an automated subgrade trimmer is not required.
4. Set forms true to line and grade and hold them rigidly in place by stakes placed outside the forms and flush with or below the top edge of the forms.
5. Measure or stake as required to construct project elements. If either of the following is met and construction survey is not a bid item, the Contracting Authority will verify that form work complies with the design requirements:
  - a. The tolerance between the design running slope and the maximum allowable running slope is less than 1.0%.
  - b. The tolerance between the design cross slope of the sidewalk, turning space, or shared use path and the maximum allowable cross slope is less than 0.5%.

If adequate tolerances are contained in the design, the Contracting Authority will not verify the form work for the construction of sidewalks or shared use paths. If field adjustments cause changes that will bring the facility into the range of tolerances shown above, notify the Engineer prior to construction.

**3.05 HMA SHARED USE PATHS AND DRIVEWAYS**

Construct sidewalks and shared use paths to the line and running slope specified in the contract documents. Unless otherwise specified in the contract documents, the maximum cross slope is 2.0%, target cross slope is 1.5%, and minimum cross slope is 1.0%. Comply with [Section 7020](#).

**Reason for Revision:** Clarified maximum, target, and minimum cross slope requirements.

**Comments:** None.
