Aurora Special Project Meeting March 26, 2010 – Conference Call

Individuals Participating:

Max Perchanok, Ontario MOT
Joe Doherty, New York State DOT
Sheldon Drobot, NCAR
Lee Fu, University of Waterloo
Chris Albrecht, Iowa State University/CWIMS

Meeting Highlights:

- This call was held concerning Aurora Project 2010-03.
- Max Perchanok began by reviewing scope and goals for the project.
- After a short discussion, the group agreed to schedule a mini-meeting for the Utah on-site meeting.
- Discussion followed, wherein it was noted that service standards relating to weather and a better quantitative understanding between maintenance activity and safety/mobility outcomes is the ultimate focus of this research.
- Lee Fu then discussed how Aurora's project fit into larger research efforts he was conducting.
- Lee Fu also noted that this research would build on work done at ISU concerning performance measures.
